

Baumgartner Werbeagentur

For over 30 years, Baumgartner Werbung has been synonymous with advertising in the Tyrol. Our campaigns have boosted brands locally and nationally for three decades. What really matters, though, is what can we do for you, your company and your product.

Developing strong brands is our mission and our passion. Good advertising creates strong brands.

As full service agency we bring your products and messages across. We look after your brand as if it was our own, placing your products in the spotlight. We introduce and develop brands. We accompany and advise you when creating and developing your brand. Our service is professional and holistic, as are our methods and ways of thinking.

As a result we create the work you need:

Mature, sophisticated, well-developed marketing concepts and longlasting solutions for the successful communication of your brand and your company.
